

SPAR SRI LANKA • FRESH PROCUREMENT

Fruit & Vegetable Procurement System: Branch User Training

Streamlining Your Procurement Process

[Your name], SPAR Fresh Procurement • [Training date]

What is this system?

Order online, every day

Your branch orders fresh fruit and vegetables from SPAR Fresh Procurement here.

One shared order list

Replaces phone calls, WhatsApp messages and paper order sheets.

Works in any web browser

On a computer, tablet or phone. Nothing to install.

Insert screenshot

Branch Dashboard home screen

Why are we moving to it?

One clear deadline

Every branch orders the same way, before the same daily cutoff.

No lost orders

Every order is saved, dated and visible to you and to head office.

Never miss a delivery

Forget to order? The system places one for you, based on an earlier week.

Proof of what arrived

You record what was actually delivered, so shortages are on record.

Your role as a branch user

Your job: tell head office what your branch needs for tomorrow, then confirm what actually arrived.

You CAN

- Place one order per day for next-day delivery
- Save an order as a draft and finish it later
- See your past orders and their status
- Confirm what was delivered, with notes
- View purchase orders issued for your branch
- Set your branch's safety stock levels
- Message head office

You CANNOT

- Order after the daily cutoff (2:00 PM by default)
- Change an order once it is submitted
- Choose or contact suppliers
- See supplier prices or other branches' orders
- Open Admin screens, even by typing the address
- Change products, prices or the cutoff time

One login per branch, shared by the branch team (e.g. br01 for Kurunegala). You only ever see your own branch.

Your dashboard at a glance

After you sign in, a short welcome screen opens your Branch Dashboard. The menu on the left has six tabs:

New Order

Place tomorrow's order

My Orders

Track orders, confirm deliveries

Purchase Orders

What was ordered for your branch

Safety Stock

Set your minimum stock levels

Messages

Chat with head office

Branch Guidelines

The rules, in Sinhala and English

Insert screenshot

Branch Dashboard with the six tabs labelled

Benefit: Everything for your branch is in one place, with no paperwork.

Viewing products and stock in hand

Every item you can order

with its code, category and unit (kg, pcs)

Search and filter

by name, or by category

Stock in Hand

your current stock, from your till (POS) system; "—" if unavailable

Promotion badges

mark items on promotion; hover a name to see its photo

Insert screenshot

Product list: search, category filter, Stock in Hand, promotion badge

Benefit: See what you already have before you order: less over-ordering, less waste.

Placing a new order

1

Open New Order

The top line shows the delivery date (always tomorrow) and today's closing time.

2

Enter quantities

Type a quantity next to each item you need. Leave the rest empty.

3

Save Order

Keeps a draft you can come back to and still change.

4

Submit Order

Sends it when final. The order then locks and cannot be changed.

Key rule

One order per branch per day, submitted before the cutoff (2:00 PM by default). After it, the form shows "Ordering is closed for today".

Insert screenshot

Order form with Save Order / Submit Order

Benefit: Quick to fill in, save and finish later, and clear confirmation when it's sent.

Missed the cutoff? Automatic orders

If nothing is submitted by the cutoff, the system places an order for you:

Saved a draft?

Your draft is submitted.

No draft?

Copies your order from the same weekday last week. None? It tries 2, 3 ... up to 8 weeks back.

Nothing found?

No order is placed, and head office is alerted.

How to spot one: auto-placed orders are labelled "Submitted automatically" and say where they came from.

Insert screenshot

"Your order was submitted automatically" message

Benefit: Shelves are never left empty on a busy day. Still, order on time: a copy may not fit this week.

Tracking your orders (My Orders)

SUBMITTED

Head office has received it.

ASSIGNED

Suppliers arranged for every item. It's on its way.

CONFIRMED

You have recorded what was delivered.

- Every order is listed by delivery date, with its item count and a coloured status.
- Click an order to see each product and quantity.
- Items head office added for you are highlighted as "Ordered by SPAR Fresh Procurement".

Insert screenshot

My Orders list, one order of each status, one opened

Benefit: You always know where your order stands, without phoning head office.

Receiving and confirming deliveries

1

Open the order in My Orders

It must show ASSIGNED.

2

Click Confirm Delivery

A form lists every item you ordered.

3

Enter what actually arrived

Add a note if needed, e.g. "damaged" or "wrong variety".

4

Click Confirm Delivery again

The order becomes CONFIRMED.

Any quantity that differs from your order is shown in red.

Benefit: Shortages and wrong deliveries are on record, so head office can follow up with the supplier.

Insert screenshot

Confirm Delivery form with one short delivery and a note

Purchase Orders

When head office issues a purchase order to a supplier for your branch, it appears here, with the supplier, the delivery date and the items.

Search
the list

Open
a PO

Print
or save as PDF

Insert screenshot
Purchase Orders list and one opened PO

Benefit: You know exactly which supplier is bringing what, so you can check the delivery at the door.

Safety Stock

Set once. Stays until you change it.

Enter the minimum quantity of each item your branch should always have.

Enter a minimum per item

Save levels stay day after day

Clear all removes every level

Benefit: Head office can see your minimum needs and plan supply around them.

Insert screenshot

Safety Stock screen with a few quantities filled in

A day in the life of a branch order

TODAY (ORDER DAY)

*The one time to remember is 2:00 PM.
The dashed box is the safety net, not the plan.*

What's in it for your branch

Order online in minutes

No calls, messages or paper to chase

Stock in hand while ordering

Order what you need, waste less

Save a draft, submit later

Order around your busy hours

Automatic order if you miss it

Shelves are never left empty

Live order status

Know where it is without phoning

Record what arrived

Shortages are on record and followed up

Printable purchase orders

Check deliveries at the door

Messages tab

Questions go to head office, in writing

Getting started: how to log in

- 1 Open the system in your browser**
[insert live URL]
- 2 Enter your branch username**
e.g. br01, plus the starting password from head office
- 3 Choose your own password**
Required at first sign-in before you can continue
- 4 Keep it within your team**
Share it only with your branch team

 **Benefit:** Your own password keeps your branch's orders safe.

5

wrong passwords

15

minutes locked

Wait it out, or call support.

Where to get help

Messages tab

Chat with head office inside the system. A red badge on the bell shows unread replies.

Branch Guidelines

The ordering rules, in Sinhala and English, available any time.

Support phone

076 562 2317

Shown in Branch Guidelines; head office can update it.
